

Crana Electric, Inc Awarded Electrical Contract for Costco Wholesale Flagship Manhattan Store at East River Plaza.

Crana Electric, Inc. was contracted to complete the entire electrical scope for Costco Wholesale's Flagship Manhattan store. The project, totaling 125,000sq feet, with 24 foot ceilings, features a new electrical distribution system, lighting and power. Crana Electric, Inc. also installed a full control system and fire alarm. This fast track project is due to be completed within 12 weeks.

Crana Electric, Inc will liaise with General Contractor Ledcor Construction on this project.

Mr Gerry Bertie, Project Manager with Crana Electric, Inc will oversee the day-to-day operations on-site.

Costco executives searched for a Manhattan site for years to target the island's higher-income population. The store, at East 116th St. off of the FDR Drive, is the fourth within New York City limits, with the others in Brooklyn, Queens and Staten Island. Another store will open next year in Queens.
